

BUSINESS AND ECONOMICS IN TÜBINGEN

The School of Business and Economics

The School of Business and Economics at the University of Tübingen is committed to high-level academic education in both business administration and economics. It features a faculty of 24 professors and about 45 junior researchers, all of whom are actively engaged in academic research.

Our Bachelor and Master programs mirror the widely respected academic expertise of the faculty. Students benefit from courses taught at the frontier of academic research as well as from dedicated tutoring and learning in small groups, with close contact to academic staff.

The School of Business and Economics offers three Bachelor of Science programs and nine different Master of Science programs that allow students to specialize in areas with promising career prospects.

Living in Tübingen

The University of Tübingen was founded in 1477. It is one of Germany's oldest and most prestigious academic institutions. Alma mater of influential thinkers like Johannes Kepler and Friedrich Hegel, the University of Tübingen has shaped European intellectual history for more than five centuries and it strives to continue doing so in the future.

Located in picturesque surroundings by the river Neckar, the city of Tübingen offers a uniquely stimulating environment, where great historic tradition and a charming old town meet present day innovation and modern campus life.

With a student body of 28,500 and a community of 4,000 scholars, the University of Tübingen and its rich academic tradition are felt in every corner of the city. A large number of international students make it a place of vibrant cultural and intellectual exchange.

In addition to providing an ideal environment for learning and teaching, the city and University of Tübingen also offer a wide range of other activities, from concerts and theater performances to courses offered by the University Sports Center.

ADMISSION

Admission to the M.Sc. in Economics requires a Bachelor's degree in economics, business studies or a related field with excellent grades. Applicants are expected to have sound intermediate level knowledge of microeconomics, macroeconomics and quantitative methods.

The entire program is taught in English. Applicants should therefore have an excellent command of the English language.

Knowledge of German is not required to complete the program. However, German classes are available for international students.

For further information, please refer to our website.

<http://www.uni-tuebingen.de/en/61600>

The program is free of tuition fees for all EU residents. The state of Baden-Württemberg has introduced fees for international non-EU students and second-degree students. For background information and for fee exemption options, please refer to www.uni-tuebingen.de/en/100463

DATES

Admission is subject to a competitive selection procedure that includes individual interviews with faculty members. Shortlisted candidates from overseas will be interviewed in a video conference.

Application deadline: May 15

Our programs start at the beginning of October.

Please refer to our homepage to find out when we will be holding interviews this year: www.uni-tuebingen.de/en/18185

STUDYING ECONOMICS IN TÜBINGEN

The M.Sc. in Economics program builds upon the expertise and reputation of our faculty in various fields of economics. It offers a great deal of flexibility and is the most versatile program we offer in economics. If you want a program that allows you choose courses from the areas of economics that you find most interesting, then this is the program for you.

Upon graduating from this program, you will be able to understand the driving forces behind major economic trends, and what these mean for firms, employees and governments. You will have the skills to analyze economic data professionally, and to understand and analyze the logic of economic problems.

Active student involvement is an important part of our education. You will be expected to write research essays and present your results in class. This seminar experience will prepare you for the work on your Master thesis under the dedicated supervision of a faculty member. The Master thesis will allow you to deal with topics at the frontier of academic research and actively take part in academic discourse.

In addition to the M.Sc. in Economics, the School of Business and Economics offers two related programs:

- M.Sc. in International Economics
- M.Sc. in Economics and Finance

Each of these programs starts with core courses that prepare you for subsequent field courses. They draw on a common pool of field courses, but each program has its specific curricular requirements that reflect its philosophy and orientation.

Double Degree Option

This program can be completed as a double degree with the University of Adelaide or with the University of Nottingham. Find more information on our website.

CURRICULUM

Students are required to earn a total of 27 ECTS credits from advanced courses in macroeconomics, microeconomics and econometrics (time series or microeconometrics). They also choose specialized field courses in economics that range from economic theory to applied economics, adding another 27 ECTS credits. Moreover, within the elective courses students have the option of taking additional field courses or complementing their studies by taking courses in related fields. Students can also benefit from the wide variety of disciplines taught at the University of Tübingen by choosing an elective course from an extensive number of courses offered by other departments and institutions at the university.

Some courses also offer an empirical tutorial in which students learn to use econometric and statistical software packages (Matlab, GAUSS, SAS, Stata) to perform empirical analyses and to implement numerical methods in economics. A command of these tools enables our students to write Master theses with genuine quantitative research results. The importance of the Master thesis is reflected in its weight of 30 ECTS credits, which is equivalent to a six-months period fully devoted to working on the thesis.

	ECTS	
Core Studies Microeconomics	9	27
Core Studies Macroeconomics	9	
Core Studies Econometrics	9	
Specialization Studies Applied Economics	9-18	27
Specialization Studies Economic Theory	9-18	
Elective Studies	27	
Advanced Topics	9	
Master Thesis	30	

CAREER

Professional Career

Graduates of the M.Sc. in Economics are well-equipped to either pursue an academic career or an ambitious professional career. We offer a Master's degree that enjoys an outstanding international reputation and gives you a competitive edge on the job market. You will acquire up-to-date scientific knowledge that is in high demand for a broad range of professional careers. Graduates may aim for a doctoral degree (Ph.D.) or careers in business and finance as well as administrative positions in the public sector and international institutions. Moreover, career paths in economics and finance also include policy advising, publishing, consulting and research.

Ph.D. Track

The M.Sc. in Economics offers a Ph.D. track which is a fast track to a doctoral degree in our doctoral programs in Economics (DPE). <http://www.uni-tuebingen.de/de/41162>

The Ph.D. track requires 27 ECTS credits from courses explicitly marked as Ph.D.-oriented. These courses take students to the frontier of academic research. Moreover, Ph.D.-track students need to write a high-quality Master thesis that can serve as a starting point for their Ph.D. thesis.
