

CURRICULUM

The program requires students to earn 60 ECTS credits at each institution, amounting to a total of 120 ECTS credits. Depending on where students complete their Master thesis, they choose two to three specializations from a broad range of options. They take modules out of the core, specialization and elective studies. Within the elective studies it is also possible to choose modules offered by other institutions and disciplines such as Sociology, Political Science or the Global Ethic Institute. The specializations in Tübingen are: Industrial Organization, International Business, Marketing, HRM and Organization, Banking, Finance, International Accounting, Auditing and Corporate Governance, Econometrics, International Business Taxation and Managerial Accounting.

ADMISSION

Admission to one of our double degree programs requires a Bachelor's Degree in Business Administration or Economics with a grade better then 2.5, preferably a degree that amounts to 180 ECTS credits (e. g. a three-year Bachelor). European Management applicants are expected to display a sound knowledge of Business Administration, Economics, Mathematics and Statistical Methods. In addition, applicants must be fluent in German and English. For the double degree cooperation with Strasbourg or Lyon applicants must have a good knowledge of French. Italian is not a formal requirement but it is strongly advised to take at least one language course in preparation of the stay abroad if the student is not yet fluent in Italian. Students have the possibility to take diverse language courses at our Language Learning Centre.

The program is free of tuition fees for all EU residents. The state of Baden-Württemberg has introduced fees for international non-EU students and second-degree students, please refer to www.uni-tuebingen.de/en/100463 for more information.

DATES

Admission is subject to a competitive selection procedure that includes individual interviews with faculty members. Shortlisted candidates from overseas will be interviewed in a video conference.

Application deadline: May 15

Our programs start at the beginning of October.

Please refer to our homepage to find out when we will be holding interviews this year: www.uni-tuebingen.de/en/18185

MASTER OF SCIENCE European Management

Double Degree Program with France or Italy

FACULTY OF ECONOMICS AND SOCIAL SCIENCES
School of Business and Economics

PROGRAM AND CAREER

The School of Business and Economics has entered into double-degree agreements with different partner universities all over the world. These programs offer participants an extraordinary opportunity to obtain two degrees at the same time. This integrated double degree Master program in European Management is conducted in cooperation with the Università degli studi di Pavia (Italy), the EM Strasbourg (France) and the iaelyon School of Management at the University of Lyon Jean Moulin 3 (France). Designed as a two-year program to be completed in equal shares at both universities, featuring a broad range of courses and granting two degrees, this Master program teaches students the skills and capabilities necessary to succeed in the European labor market. With one study year in Tübingen, Germany and one study year at the partner university participants experience two cultures, two campus lives and two academic perspectives. Graduates look forward to excellent career prospects in various sectors. At the end of their studies they are granted two Master degrees: Master of Science in European Management at the University of Tübingen and the corresponding Master degree of the partner university. Due to the international focus of the program graduates are able to get into different working procedures in different countries efficiently and adopt beneficial practices being used in other cultures. Students of this program are full students at both universities. The program may be completed on a PhD track, preparing students for an academic career.

BUSINESS AND ECONOMICS IN TÜBINGEN

The School of Business and Economics

The School of Business and Economics at the University of Tübingen is committed to high-level academic education in both business administration and economics. It features a faculty of 24 professors and about 45 junior researchers, all of whom are actively engaged in academic research. Our Bachelor and Master programs mirror the widely respected academic expertise of the faculty. Students benefit from courses taught at the frontier of academic research as well as from dedicated tutoring and learning in small groups with close contact to academic staff.

The School of Business and Economics offers three Bachelor of Science programs and nine different Master of Science programs that allow students to specialize in areas with promising career prospects.

Living in Tübingen

The University of Tübingen was founded in 1477. It is one of Germany's oldest and most prestigious academic institutions. Alma mater of influential thinkers like Johannes Kepler and Friedrich Hegel, the University of Tübingen has shaped European intellectual history for more than five centuries and it strives to continue doing so in the future. Located in picturesque surroundings by the river Neckar, the city of Tübingen offers a uniquely stimulating environment, where great historic tradition and a charming old town meet present day innovation and modern campus life. With a student body of 28,500 and a community of 4,000 scholars, the University of Tübingen and its rich academic tradition are felt in every corner of the city. A large number of international students make it a place of vibrant cultural and intellectual exchange.

In addition to providing an ideal environment for learning and teaching, the city and University of Tübingen also offer a wide range of other activities, from concerts and theater performances to courses offered by the University Sports Center.

EM STRASBOURG BUSINESS SCHOOL

The EM Strasbourg Business School is the only French institution to combine the advantages of a multidisciplinary academic center of excellence and those of a Business School. It is established in a network of companies, local authorities and consular sector actors. The University Center of Strasbourg, resulting from the merger of the three Strasbourg universities in 2009, is the largest university in France. Its Grande École program, in which the students of the Master in European Management take part, allows students to acquire broad and specialized knowledge adapted to the needs of tomorrow's decision-makers. Graduates are able to evolve in a globalized environment and to face the questions of sustainable development, ethics and diversity.

Course of studies

Students start their program at the EM Strasbourg in September where they take modules from their chosen specialization as well as language courses. Furthermore, the EM Strasbourg requires students to complete an internship lasting 3.5 months which can be done between the first and second year or at the end of the second year. The second year of the program is spent in Tübingen and includes the completion of the Master thesis.

More information and an overview of the specializations offered in Strasbourg can be found here: <http://www.uni-tuebingen.de/de/61328>

UNIVERSITÀ DEGLI STUDI DI PAVIA

The School of Economics is heir to the original Italian schools of Commerce, which were founded in the second half of the 18th century, and subsequently transformed into the various faculties of Economics and Business. The constant burgeoning of world-wide markets, the rapid development of financial markets and the expansion of new information and communication technologies required increasingly diverse professional profiles from the faculty graduates. In order to fulfill these new demands, the faculty has adapted and diversified the training it offers, that is to say three Lauree Triennale and four Lauree Magistrale programs.

Course of studies

In this Double Degree, students may choose at which university they will write their Master Thesis. Thus, they spend their year in Pavia either in their first year or second year. Studying in Tübingen students choose two to three specializations from a broad range of business areas. When studying in Pavia students can choose between a Digital Management and an International Management track and may take courses from a number of business specializations. There is no obligatory internship, but students could integrate one between their first and second year.

More information and an overview of the specializations offered in Pavia can be found here: <http://www.uni-tuebingen.de/de/61324>

IAELYON SCHOOL OF MANAGEMENT

Located in the heart of Lyon, in the Part-Dieu Business District, iaelyon - Université Jean Moulin is a University-based full service School of Management which offers a unique range of programs in a multi-cultural and international setting. Each year, international students make up 15% of the student body at iaelyon and have the opportunity to follow courses in English or in French. The School provides international students with specific services: a dedicated team to help them settle and assist them throughout their stay, academic advisors to guide them in their course selection, and an Internship and Career Center to support students in developing their professional project and finding internships or employments in France or abroad.

Course of studies

Students participating in this Double Degree spend their first year at their home university and their second year at the partner university. Therefore, students will study in Tübingen in their first year. In their second year, students study in one of the Master programs at iaelyon, taking modules out of the chosen program and completing their Master thesis. Additionally, students collect practical experience by completing a required internship of six months.

More information and an overview of the specializations/parcours offered in Lyon can be found here: <http://www.uni-tuebingen.de/de/115976>
