

# BUSINESS AND ECONOMICS IN TÜBINGEN AND PAVIA

## The School of Business and Economics in Tübingen

The University of Tübingen was founded in 1477 and is one of the oldest and most prestigious German academic institutions. Alma mater of influential thinkers like Johannes Kepler and Friedrich Hegel, the University has shaped European intellectual history for more than five centuries and strives to continue doing so in the future.

The School of Business and Economics in the University of Tübingen is dedicated to high-level academic education in both business administration and economics. It features a faculty of 24 professors and about 45 junior researchers, all of whom are actively engaged in academic research. Our Bachelor and Master programs mirror the widely respected academic expertise of the faculty. Students benefit from courses taught at the frontier of academic research as well as from dedicated tutoring and learning in small groups, keeping close contact with our academic staff. The School of Business and Economics offers three Bachelor of Science programs and eight different Master of Science programs that allow students to specialize in areas with promising career prospects.

## The School of Economics in Pavia

The School of Economics is heir to the original Italian schools of Commerce, which were founded in the second half of the 18th century, and subsequently transformed into the various faculties of Economics and Business. The constant burgeoning of world-wide markets, the rapid development of financial markets and the expansion of new information and communication technologies multiplied the professional profiles required by the faculty graduates. In order to comply with the new requirements, the faculty adapted itself and hence diversified the training it offers, that is to say three Lauree Triennale and four Lauree Magistrale programs.

## ADMISSION

Admission to one of our Dual Degree Programs requires a Bachelor's Degree in Business Administration or Economics with a grade better than 2.5, preferably a degree that amounts to 180 ECTS credits (e. g. a three-year Bachelor).

European Economics applicants are expected to have solid intermediate knowledge in at least two of the following fields: Micro- and Macroeconomics, Foreign Trade and Trade Policy, Quantitative Methods, Finance and Investment Theory. Students wishing to apply for the M.Sc. in European Economics must submit documents proving their English language skills (TOEFL test: at least 80 / IELTS: at least 6.0 / or similar).

European Management applicants are expected to display a sound knowledge in Business Administration, Economics, Mathematics and Statistical Methods. Students wishing to apply for the M.Sc. in European Management are required to be fluent in German and English. Knowledge of Italian is required for two of the three specialisations offered in Pavia.

## DATES

Admission is subject to a competitive selection procedure that includes individual interviews with faculty members. Shortlisted candidates from overseas will be interviewed in a video conference.

Application deadline: May 15

Interviews with shortlisted applicants are scheduled early June.

The program starts at the beginning of October.

Please refer to our homepage to find out when we will be holding interviews this year:

## PROGRAM AND CAREER

The Pavia Tübingen Dual Degree Program provides students with a unique study experience. Designed as a two-year program to be completed at both of the partnering universities, featuring a broad range of courses and granting two degrees, this master program perfectly prepares graduates for an international career.

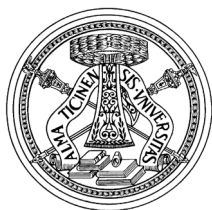

This master program endows students with the skills and capacities necessary to succeed in the European economic world. With one study year in Pavia, Italy, and one study year in Tübingen, Germany, students experience two cultures, two campus lives, two academic practices. Graduates look forward to excellent career perspectives in various sectors. By the end of their studies they are granted two master degrees: the Laurea Magistrale degree and the Master of Science degree.

The Dual Degree Program applies to two studies:

### European Economics European Management

Students enroll in either the M. Sc. in European Management or the M. Sc. in European Economics. Students of this program are full students at both universities. They may choose either to start their master at the Università degli Studi di Pavia or at the Eberhard Karls Universität Tübingen. To complete their studies, they are obliged to obtain a total of 120 ECTS-Credits, 60 of which at each of the two universities.

The program may be completed on a PhD track, preparing students for an academic career.

## EUROPEAN ECONOMICS

Studying in Tübingen students focus on up to three specializations out of Economics, International Economics, Finance and Econometrics. Depending on their specialization they take compulsory and elective courses.

Studying in Pavia students can choose courses out of a set of specializations in the field of Economics.

A series of additional courses on economic globalization, like International Trade, Labor Migration, International Capital Flows and International Financial markets educate students to become true experts in International Economics.

Specializations Tübingen	Specializations Pavia
Economics	Industrial Organisation & Market Strategies
International Economics	International Economic Integration
Econometrics	
Finance	Finance

## EUROPEAN MANAGEMENT

Studying in Tübingen students choose two to three specializations from a broad range of business specializations. They take compulsory and elective courses depending on their specific specialization, but may additionally aim at complementary specializations in Economics, benefitting from a strong Economics scholarship at the Tübingen School of Business and Economics.

Studying in Pavia students can choose courses out of a number of business specializations. Additionally, they may take sociology courses, benefitting from the School's specific focus.
