

# European Master in Project Management - EuroMPM

Fachhochschule Dortmund (University of Applied Sciences and Arts)  
Master of Arts

## General

### The program qualifies for senior managerial work in projects in companies, associations or authorities

The study program is a consecutive application-oriented program. Accordingly, admission requires a first graduate degree imparting professional skills (Bachelor's degree or (German) Diplom). The criteria for an application-oriented study program are met both with regard to content and by the lecturers' quality as these have experience in the job-specific application of academic findings in addition to their academic qualification.

## Content

### European Master in Project Management deals with problems like...

- How to manage different projects successfully?
- What are efficient and effective approaches, methods and tools of Project Management for different project types?
- What is the role of a successful Project Manager?

### The relevant profile elements are:

- focus on the application area Project Management
- investigation and development of Project Management as an academic field
- communication of the interdisciplinary and cross-domain character of project management through the selection of modules and specializations and by integrating several disciplines in Dortmund and at partner institutions
- the international focus with the integration in a network of renowned European universities
- the high share of practical and project-related work in the curriculum, both by the elements of the course modules throughout the semester and by the independent work dominating the third and fourth semesters; this profile element is reinforced by the cooperation of lecturers from the industry with long-term associations with Fachhochschule Dortmund
- consolidation of the academic element by integration in F&E activities of the universities via the project thesis and the specialization

The Master of Arts prepares you for tasks in Project Management

If the Master's examination has been passed, Fachhochschule Dortmund awards the academic degree of Master of Arts (MA).

## European Master in Project Management is unique due...

to the international orientation, the focus on Project Management in all modules and the strong link to the practical experience in all industry segments.

## The curriculum offers specialization in

international orientation, the focus on Project Management in all modules and the strong link to practical work in all industry segments.

## Perspectives

### Professional perspectives

Graduates of this Master's program find their job opportunities in:

- Project Management
- a Project Management Office
- (Project Management) Consulting
- in all kind of industries

### Cooperative doctorate

The Master's degree is the basis for a doctorate. Graduates who wish to acquire further academic qualifications have the opportunity to pursue a doctoral degree at a university through a cooperative doctorate in which Fachhochschule Dortmund – University of Applied Sciences and Arts cooperates with a university.

## Application

### What do I need?

#### 1. Required degree

Diplom or a Bachelor's degree in the field of Business Science and/or Project Management and/or Computer Science or a course program closely related to the Master's study program European Master in Project Management at a university of applied sciences (Fachhochschule) or a university, or the completion of a corresponding accredited Bachelor's qualification program at a university of cooperative education (Berufsakademie) with an overall grade of at least "good" (2,3).

The qualifying degree course of study must have included instruction in the relevant competences in the areas of quantitative business administration, qualitative business administration, project management and computer science equalling the required amount at the required level.

Please note that, according to the admission requirements, the required competencies must be acquired during the Bachelor's program. Work experience in the field of project management cannot be considered by the Commission.

In addition, the study programs must amount to a minimum of 180 credit points in accordance with the European Credit Transfer and Accumulation System (ECTS). Degrees obtained outside the ECTS-System must be converted into the ECTS-System.

#### 2. Proof of English language proficiency

Proof of sufficient English proficiency provided by a TOEFL-ITP test with at least 550 points or a TOEFL-iBT test amounting to a minimum of 90 points passed within two years before the application was submitted. The proof may also be provided by other test methods equivalent to the TOEFL test in accordance with the European Framework of Reference (e.g., IELTS with at least 6.5 points). The Expert Committee decides whether equivalence is demonstrated. Study programs completed at foreign universities as defined under 1 must also include a final thesis comparable to theses from study programs at German universities with regard to the minimum quality requirements.

Please note that proof of a degree from a Bachelor's or Master's program taught in English is not considered sufficient.

#### 3. Pre-Check Service

In order to verify whether you meet the requirements for admission to the program before submitting your application, all applicants (EU, German, non-EU) are highly recommended to submit their documents for a pre-check.

After successfully passing the pre-check, you will receive instructions and a link to the online portal.

Applications are only possible with a positive pre-check result. The eligibility of previous studies will be assessed exclusively through the pre-check portal. Please refrain from sending inquiries or submitting documents for evaluation via email, as such requests will not be processed by the Commission.

Here you can find the link of the [Pre-Check Service >](#)

**The Pre-Check portal is open from February 1st until June 13th.**
