

International Business Administration

Constructor University Bremen
Bachelor of Arts

Program

Meet the challenges and opportunities of the global business world

The International Business Administration program is meticulously crafted to furnish students with the knowledge, skills, and perspectives essential for success in today's dynamic global business environment. This program places a strong emphasis on the examination of international corporations, the pervasive integration of technology across all business facets, and the profound influence of cultural and economic factors on business operations.

Balancing both theoretical foundations and practical applications, the program ensures students develop a comprehensive understanding of key components in international business and management. These include management practices, information technology, and the broader global economic and cultural context. Through a blend of theoretical knowledge, hands-on experience, and scientific methodologies, the program aims to provide students with a well-rounded education, arming them to navigate the challenges and seize the opportunities present in the global business arena.

Career

Career perspectives

With its explicit emphasis on managing firms engaged in international business activities, the International Business Administration (IBA) program equips students with robust qualifications highly sought after by a diverse range of businesses, particularly those involved in international and globalizing operations. Recent graduates of the program have successfully secured internships and positions in renowned companies, including Bosch, Deloitte, KPMG, and PwC.

The IBA program has paved the way for graduates to embark on varied career paths. The academic rigor of the program not only positions students for success in the workforce but also opens doors to prestigious graduate programs, such as those at IE Madrid or the University of Amsterdam.

Given their exposure to working and living alongside students from over 100 countries on Constructor University's international campus, IBA graduates are exceptionally well-prepared to assume responsibilities in intercultural work environments. Moreover, the Constructor University

Financing

Investing in education is a significant commitment to your future, and at Constructor University, we are dedicated to transforming it into an affordable reality for students worldwide. To achieve this, we provide personalized financing options tailored to help cover tuition fees. These packages may include various forms of financial assistance, such as scholarships, grants, and tuition deferrals. The deferred tuition fees are only repaid once you have successfully entered the job market, allowing you to concentrate fully on your studies without immediate financial burden. We firmly believe that a Constructor University education serves as an ideal foundation for your future career, and we are delighted to invest in your success.
