

# Global Economics and Management

Constructor University Bremen  
Bachelor of Arts

## Program

### Complex and interrelated economic and political forces that shape our globalized world

The Bachelor program in Global Economics and Management at Constructor University offers students a comprehensive understanding of the intricate and interconnected economic and political forces that mold our globalized world. Through a distinctive blend of conventional business and economics studies, political science, sociology, and management, students acquire a transdisciplinary perspective on the challenges encountered by contemporary firms and economies, with a focal point on sustainable development and responsible leadership.

The program's excellence and its effective integration of diverse academic disciplines have consistently earned it high rankings in recent university assessments conducted by the Center for Higher Education (CHE). This recognition underscores the program's efficacy in arming students with the knowledge, skills, and perspectives essential for success in today's dynamic and rapidly evolving global economic landscape.

## Career

### Career perspectives

The Bachelor program in Global Economics and Management at Constructor University provides students with solid labor-market qualifications, combining economics and management to prepare them for junior management positions. Graduates are equipped to handle responsibilities in function-specific tasks and projects within areas such as business development, sales and marketing, human resource management, organizational development, strategy and technology consulting. They are also well-prepared for analyst positions in these fields or in specific industries.

The program positions students for top global career paths, with recent graduates securing internships and positions in prestigious institutions like the World Bank, MIT, or the Harvard Kennedy School, as well as leading companies including Daimler, Deloitte, Deutsche Bank, Deutsche Börse, Ernst & Young, Henkel, KPMG, LinkedIn, Microsoft, PwC, Uber, Vodafone, Volkswagen, or Zalando, and various startups. A degree in GEM imparts transferable skills that enable graduates to transition into other areas of employment, spanning national and multinational companies, governmental agencies, NGOs, international organizations, think tanks, special interest groups, or research institutions.

Moreover, the GEM program positions graduates well for top-tier graduate education, with alumni successfully entering renowned institutions worldwide such as the universities of Oxford, Cambridge, Edinburgh, St Gallen, Bonn, Munich (TUM), and Mannheim, as well as graduate schools like ESADE, Copenhagen Business School, BI Norwegian Business School, Hertie School of Governance, London Business School, and the London School of Economics.

GEM graduates, having experienced a diverse international environment on Constructor University's campus, are well-prepared to assume responsibilities in intercultural work environments. The Constructor University Career Services Center offers comprehensive support, including access to an exclusive internship program, individual career counseling, professional skills seminars, an online job portal, and opportunities for employer networking during on-campus recruiting events. This ensures graduates are well-equipped for success in their careers and continued education.

## Application

### Undergraduate application information

**Here** you can find out about deadlines, the application process and requirements to apply for your Bachelor's program at Constructor University.

### Financing

Investing in education is a significant commitment to your future, and at Constructor University, we are dedicated to transforming it into an affordable reality for students worldwide. To achieve this, we provide personalized financing options tailored to help cover tuition fees. These packages may include various forms of financial assistance, such as scholarships, grants, and tuition deferrals. The deferred tuition fees are only repaid once you have successfully entered the job market, allowing you to concentrate fully on your studies without immediate financial burden. We firmly believe that a Constructor University education serves as an ideal foundation for your future career, and we are delighted to invest in your success.
