## Career

### Career Perspectives

The BSc Management, Decisions, and Data Analytics program revolves around the growing imperative for managers to comprehend and leverage data in a business context. The distinctive amalgamation of business, technology, and methodology aims to furnish students with a competitive advantage in the job market, propelling them towards a forward-looking career in a global corporation or innovative startup. Additionally, the program enables students to qualify for further studies in international graduate schools.

Both the Student Career Support (SCS) and the Constructor University Alumni Office play pivotal roles in assisting students with their career development. The SCS offers high-quality training and coaching in various areas, including CV creation, cover letter formulation, interview preparation, effective presentation skills, business etiquette, and employer research. This comprehensive support aids students in identifying and pursuing rewarding careers post their tenure at Constructor University. Moreover, the Alumni Office facilitates the establishment of an enduring and global network, proving invaluable when exploring job opportunities in academia, industry, and beyond.

## Financing

Investing in education is a significant commitment to your future, and at Constructor University, we are dedicated to transforming it into an affordable reality for students worldwide. To achieve this, we provide personalized financing options tailored to help cover tuition fees. These packages may include various forms of financial assistance, such as scholarships, grants, and tuition deferrals. The deferred tuition fees are only repaid once you have successfully entered the job market, allowing you to concentrate fully on your studies without immediate financial burden. We firmly believe that a Constructor University education serves as an ideal foundation for your future career, and we are delighted to invest in your success.
