

International Business and Finance

Technische Hochschule Augsburg (THA)
Master of Arts

In general

Strategic, financial, business and leadership capabilities

The Master of International Business and Finance is a 3-term program. Cross-cultural exposure is a key element of this program, and students are required to study for one term at one of our partner universities. Students of the Master's degree program also benefit from a broad network of renowned business partners, like blue chip corporations, consulting companies, and investment banks.

The core of the program aims at:

- Professional Expertise: Students acquire in-depth knowledge of financial markets, corporate finance, corporate strategy, M&A and innovation management.
- Communication Expertise: By learning both the potentials and limitations of different strategies and opportunities of multinational business, students are able to apply academic rigour in challenging real world applications.
- International Exposure: First hand cross-cultural experience is acquired both in the classroom sessions with international peers, as well as through an exchange program with one of our partner universities abroad.
- Social Competence: Through active learning and case studies, students are trained in leadership skills to manage complex tasks both independently, and as a team.

Career Opportunities

Upon graduation, students will be able to advance to leadership positions in multinational or medium-sized companies. Alternatively, students might start their career as corporate finance or strategy consultant. Graduates will specialize in financial fields and entrepreneurially-driven fields.

Formalities

Admission and Application

Admission Requirements

The Master Program is a graduate-level course for students who want to further develop their competencies in financial, strategic and international management skills. Graduates with a bachelor's degree are eligible to apply.

- Motivation Letter
- You should have passed a Bachelor program with at least 210 ECTS. In case of up to 30 ECTS missing you might bridge those in the first term with additional lectures or on-the-job experience.
- You must have completed at least a Bachelor's degree in Business Management, Economics, International Management, International Business Studies, or the equivalent with a focus on business or/and finance.
- The hurdle rate for the grade is 2.5 or better according to the German grading system. If you have a foreign Bachelor Degree, a preliminary review documentation (VPD) from uni-assist is required.
- An English (TOEFL or IELTS) test is mandatory for all non-native speakers (only exception US, UK); the TOEFL hurdle rate is 85 points, the IELTS hurdle rate is 7.0.
- First-hand experience (e.g. internships) in finance and strategy

Application

The master program starts in winter term only. The application is possible between 1st May and 15th June. Applications for admission are submitted exclusively on the university's application portal. For more detailed information about the application process, please visit our website.

Edinburgh Napier University

University

Technical University of Applied Sciences Augsburg

is an innovative and practically-oriented university for economics and business, architecture, engineering, computer science and art, and design with more than 4,000 students. The courses are organized in small groups which enable students to participate intensively and have close contact with professors and lecturers. Moreover, our university works closely with numerous well known companies and institutions to establish a business-oriented curriculum.

The city of Augsburg, with over 2000 years of history, is located in Southern Germany. With approximately 20,000 students, it is a lively university city and an ideal place to study. The city is full of museums, theatres, exhibitions, but also taverns, cinemas, concerts and public festivals. Augsburg is close to both Munich and the Bavarian Alps.

For more detailed information about the city, please visit the [website](#).
